

Sexuality Education for people with Intellectual Disabilities

with

Annette Milligan

From Health Click

Annette is a sexual health nurse and educator who has developed a series of resources to support parents and educators teach people with intellectual disabilities about all those intimate things which can be so hard to teach:

Friendships	Safety in relationships
Dating	Hygiene showering and using the toilet
Asking permission	How to ask for help
and more...	

Wherever we've taken these resources, the response is the same
- there is nothing else like them. As a British woman said
"these are the resources I always wanted but they were never available"
- now they are. And they're enabling care-givers and parents to have conversations which are often difficult and provide valuable education.

The session will include general information and there will be plenty of time for questions
